## **DETAILED ACTION**

### ***Response to Amendment***

Claims 63-65 and 68-70 are pending in the instant application.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Any objection or rejection of record which is not expressly repeated in this action has been overcome by Applicant's response and withdrawn.

Applicant's arguments filed 25 September 2006 have been received, entered into the instant application and fully considered. The Declaration filed on 25 September 2006 under 37 CFR 1.131 is sufficient to overcome the Ni et al. reference.

The data presented in the Declaration provides support for the assertion that PRO1114 (the protein of SEQ ID NO:352) decreases the response of the MLR demonstrating immunosuppression *in vitro*.

### ***Specification***

The title of the invention is not descriptive. It is suggested that Applicant file an amendment to change the title – such as PRO 1114 polypeptides. Your cooperation is appreciated.

### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Applicant continues to assert and argue that the instant specification enables use of the claimed invention for suppression of the graft versus host response. This asserted use is not disclosed in the instant specification. However, based on the MLR assay, the data provided in the Declaration filed 25 September 2006, and the teaching in the art that the MLR assay is an art accepted assay for identifying immune suppressive molecules, one of ordinary skill in the art would recognize a well-established use for the claimed invention for at least *in vitro* immune suppression. Since the claims are not directed to *in vivo* methods of use, this issue need not be further addressed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine J. Saoud whose telephone number is 571-272-0891. The examiner can normally be reached on Monday-Friday, 6AM-2PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brenda Brumback can be reached on 571-272-0961. The fax phone

number for the organization where this application or proceeding is assigned is 571-273-8300.
